

## Travel options to attend the Raceboard European Championship and Master World Championship.

There are several options to get to Ibiza.

As we know that the transport of material is going to be a very relevant element for this transfer, the Santa Eulària Yacht Club (CNSE) will make several vans with trailers available for the sailors to transport all the material. During the Raceboard World Championship in Germany, a representative of the CNSE will contact all the sailors present there to organize the logistics of transport to Ibiza. In this way, all sailors can travel by plane and look for cheap tickets in advance.

### **Travel by airplane:**

Sailors who want to travel by plane should do so having put the boards in the trailers, since the airlines, today, allow windsurfing boards of more than 3 meters to enter. In Ibiza there is only one airport, so there is no option of making a mistake. From the club we will organize a transfer, at a low cost, for the sailors can arrive to Santa Eulària, about 15 minutes by car.

You can also rent a car at the airport with the company Moto Luis, which gives us a 10% discount with the promotional code RACEB23

<https://www.motoluis.com/>

### **Travel by Ferry:**

If you want to come with your car, van or caravan you will have to travel with the Balearia or Transmed companies. We are working with both to achieve affordable prices. In both cases, the boat would normally leave Barcelona or Valencia at 10pm and arrive in Ibiza at 7am the next day, or 3am if it is from Valencia.

We will have parking available for all those who come with their vans and caravans less than 5 minutes walk from the sailing school where all the action will take place.
